THE BCCs

Founded on the values of Cooperative Credit – cooperation, reciprocity and local focus – they contribute to the well-being of communities and to the economic and cultural development of their regions through active social responsibility.

They promote the development of cooperation and education in savings and retirement while at the same time promoting social cohesion and sustainable growth of the regions they operate in.

They stand out for their determination to nurture the common good.

A group of mountaineers are seen from behind, ascending a steep, snow-covered mountain slope. They are wearing heavy winter gear, including helmets, backpacks, and crampons on their boots. The terrain is rugged with patches of dark rock visible through the white snow. The sky is a clear, bright blue with some light clouds near the horizon.

THE LARGEST COOPERATIVE BANKING GROUP

The Group was established on 4 March 2019 as part of the reform of Italian Cooperative Credit, which envisaged the obligation for all BCCs to join a cooperative banking group, a completely new institution in the Italian and European banking scene.

It's the legacy of more than **60 years of history**, when in 1963 representatives of 190 Casse Rurali (Rural Banks) came together to establish the Istituto di Credito delle Casse Rurali e Artigiane.

It's the only domestic banking group with wholly Italian capital.

THE COHESION AGREEMENT

The member BCCs signed the cohesion agreement. Each BCC becomes a shareholder in the capital of the parent company, remaining **the owner of its own assets**.

The BCCs belonging to the Group have a total shareholding that, according to regulations, must be at least 60% of the capital of the parent company.

THE PROTECTION SYSTEM

To protect customers and support the solvency and liquidity of its member banks, the BCC Iccrea Group's protective structure is based on two solid pillars:

the cross-guarantee system envisaged in the cohesion agreement, **based on the principle of reciprocity;**

the Depositors' Guarantee Fund (Fgd) of Cooperative Credit operational since 1997.

2nd LARGEST ITALIAN BANKING GROUP WITH 2,422 BRANCHES

The Group's BCCs are present with at least one branch in 1,680 municipalities (35% of Italy's 4,750 municipalities served by banks);

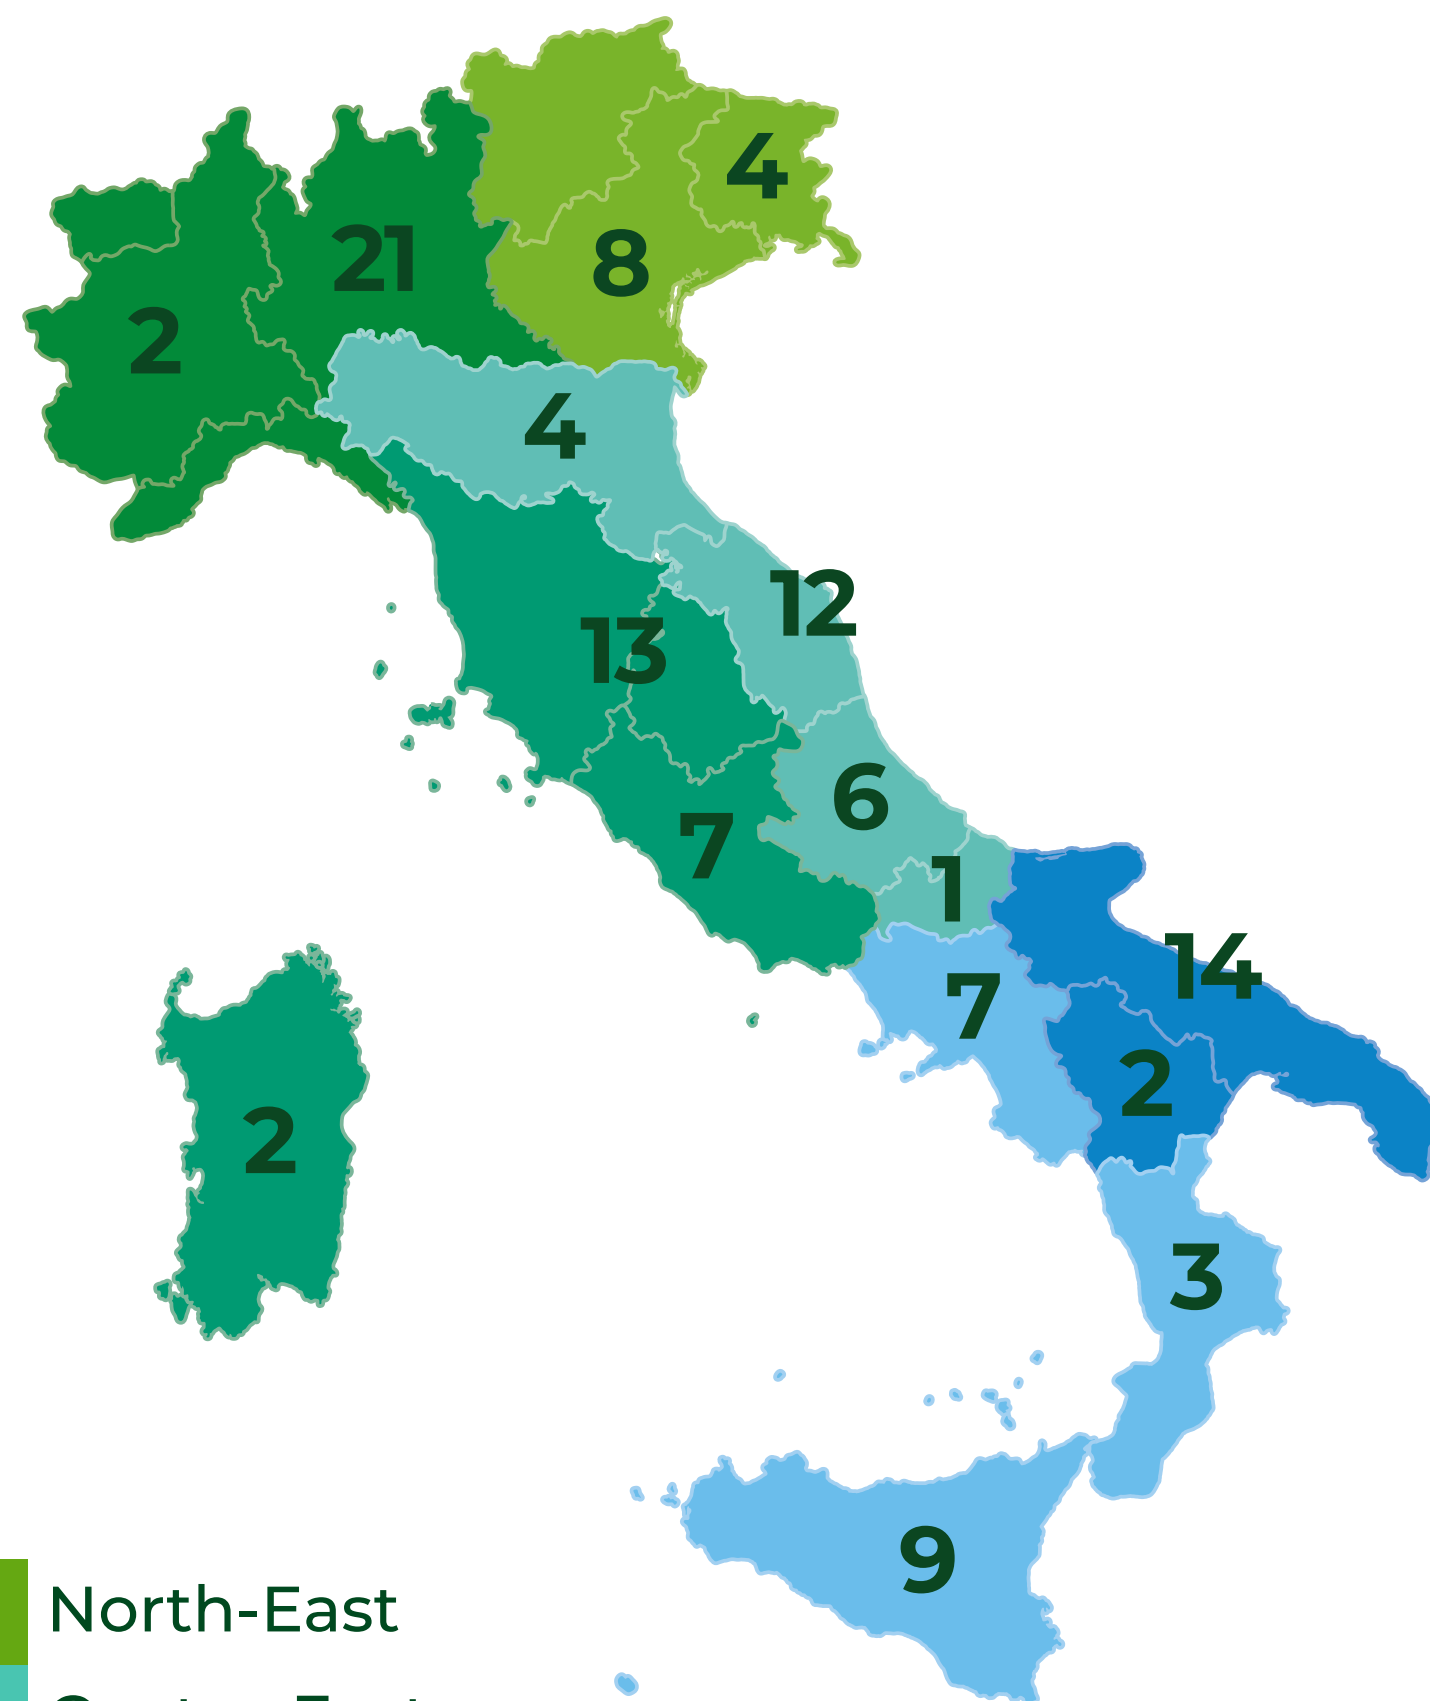

In 335 of the municipalities served, the Group's branches constitute the only bank in the area, consistent with the mission of staying in close contact with local communities.

WE COLLECT FROM
THE COMMUNITY
AND GIVE BACK TO
THE COMMUNITY

The financial resources collected by our banks are almost entirely re-deployed **in the very places** where they are gathered and aim to support long-term economic and social development.

The role of BCCs in the national economic system is characterised by specific regulations that commit them to:

- allocate at least 95% of credit exposures to the local area.
- take on more than 50% of credit exposures to cooperative Members.

This commitment is supported by a strong correlation with cooperation and mutualism. In fact, the Group is an active bearer of the values contained in the Charter of Values of Cooperative Credit “focusing its activities on the attention and promotion of the person”, placing particular emphasis on the value of each individual and the importance of investing “in human capital – made up of shareholders, customers and employees – in order to develop it on a consistent basis”.

CHARTER OF COMMITMENTS ON THE ENVIRONMENT

The Group defines the commitment and guidelines for the effective prevention, management and (where possible) reduction of environmental (direct and indirect) impacts resulting from its operations in compliance with the relevant legal requirements and contributing to the achievement of the goals of the UN 2030 Agenda for Sustainable Development.

GROUP CODE OF ETHICS

The Group’s Approach to Ethics In its choices and conduct, the Group strives to respect the ethical and value principles expressed in the “Charter of Values of Cooperative Credit”, which expresses the values the Cooperative Credit Banks’ actions, strategies and practices are based on.
